Organ Failure of the Brain: Current and Future Management of ICU Delirium

Shawniqua Williams Roberson
Assistant Professor
Departments of Neurology and Biomedical Engineering
Director, ICU EEG Service
Vanderbilt University Medical Center
Vanderbilt University

Objectives:

1. Recognize the importance of delirium among critically ill patients.
2. Implement best practice strategies to monitor for and limit the occurrence of delirium in the ICU.
3. Describe the development and validation of EEG-based biomarkers of ICU delirium, and the potential utility of EEG to inform delirium management.
